## JOBS AND THE ECONOMY

We need to continue responsible and sustainable development in Bethlehem. By focusing on the revitalization of the former Bethlehem Steel site and identifying creative opportunities, we can bring family-sustaining jobs to the city.

## OUR NEIGHBORHOODS

Bethlehem is a city of unique neighborhoods, each with their own identity and character. We need to ensure the delivery of high-quality city services to ensure that our neighborhoods stay safe and strong.

## FISCAL RESPONSIBILITY

As a small business owner, I understand that we need to maintain a balanced city budget and continue to live within our means. By holding the line on taxes, we can ensure that Bethlehem remains an affordable city for families and an attractive environment for businesses.
